DESCRIPTION

Maruyama's tractor mounted boom sprayers are ideal for small and medium size farms, ranches, and nurseries. Ideal for sugar cane, berries, flowers, plants, grasses, and many types of narrow row produce.

This sprayer is coupled to the rear of the tractor via an included PTO drive shaft. Fully equipped with adjustable arms and nozzles to make totally precise applications in crops whose design allows mechanization with conventional tractors to guarantee an adequate calibration per treated area.

Optional utilization for hose and spray gun combination can be added for spot spraying applications away from tractor.

MAIN FEATURES

- IRON-5YR commercial warranty
- Grease-free UNIFLOW pump system that allows consistent pressure for uniform chemical application
- Welded metal frame with adjustable manual lift for boom height adjustment for crop clearance
- ISO quality high pressure nozzles
- Excellent pressure-flow ratio to be able to do any type of dosing per area
- Maruyama legendary triple piston MS331 pump ensures durable, efficient service
- Adjustable 2-direction nozzles on the booms increase productivity and saves time due to not having to change nozzles between sprays
- Made in Japan
