COMPLETE UNIT

12-Fin Rubber Paddles

For sweeping anything from grass clippings to snow and gravel. The 12-fin rubber drum avoids damage to swept surfaces.

Sweeping swath: 23 in. (584 mm)

849025

Silicon Carbide Impregnated Brush

A medium-aggressive abrasive brush that also removes moss and dry mud, but not as effective on dust and fines. This brush has the lowest kickback in use.

Sweeping swath: 15 in. (381 mm) 840463

Aggressive Nylon Brush

This brush is almost as aggressive as a crimped wire brush, at an economical price. Unlike the crimped wire brush, this one also cleans cracks and crevices in pavement.

Sweeping swath: 11 in. (279 mm) 840465

Crimped Wire Brush

Our most aggressive brush for the most demanding applications. It scours moss, dry mud, and loose paint and is useful for descaling.

Sweeping swath: 11 in. (279 mm) 840462

Nylon Brush

For lighter-duty aggressive cleanup of heavy, loose dirt. Useful in flat-surface work, spreading liquids, and cleaning walkways and bike paths. Recommended for T300 and T3410 only.

Sweeping swath: 20.2 in. (513 mm)

840461

Mixed Nylon/Wire Brush

This medium-aggressive brush works for removing moss, dry mud, dust, and fines as well as cleaning crevices and cracks in pavement.

Sweeping swath: 11 in. (279 mm) 840464
