# WELCOME

We proudly celebrate **Maruyama's** 127th anniversary as an industry-changing manufacturing company.

**Maruyama** began in Japan, as a family business manufacturing fire extinguishers in 1895. The Uchiyama family then started to manufacture manual sprayers in 1918. With their development of the power sprayer in 1933, **Maruyama** played an important role in disaster control and prevention. They also contributed to food production in the agricultural industry during the post-depression years.

For over a century, **Maruyama** has become a world leading manufacturer of disaster relief and prevention equipment, creating high quality pressure industrial pumps, sprayers and commercial-grade 2-cycle landscape equipment.

**Maruyama US** is now claiming a part of the pest control industry with newly designed, versatile, high-capacity skid sprayers.

**Maruyama** endeavors to meet and exceed life's obstacles with our commercial grade power equipment and sprayers.

## HEAVY DUTY GEAR BOX FEATURES

### 1. THREADED CLUTCH SHAFT

The solid inner driveshaft is threaded at the clutch end to reduce vibration

### 2. DUAL ANTI-VIBRATION CLUTCH HOUSING

Helps reduce operator fatigue and provides a more comfortable working experience

### 3. BRONZE BUSHINGS

Five self-lubricating dampened bushings to fully support the inner shaft for smooth operation and greater structural integrity

### 4. POLISHED SOLID STEEL SHAFT

Solid steel shaft for exceptional durability and completely protected by a lifetime warranty

### 5. EXTRUDED ALUMINUM SHAFT

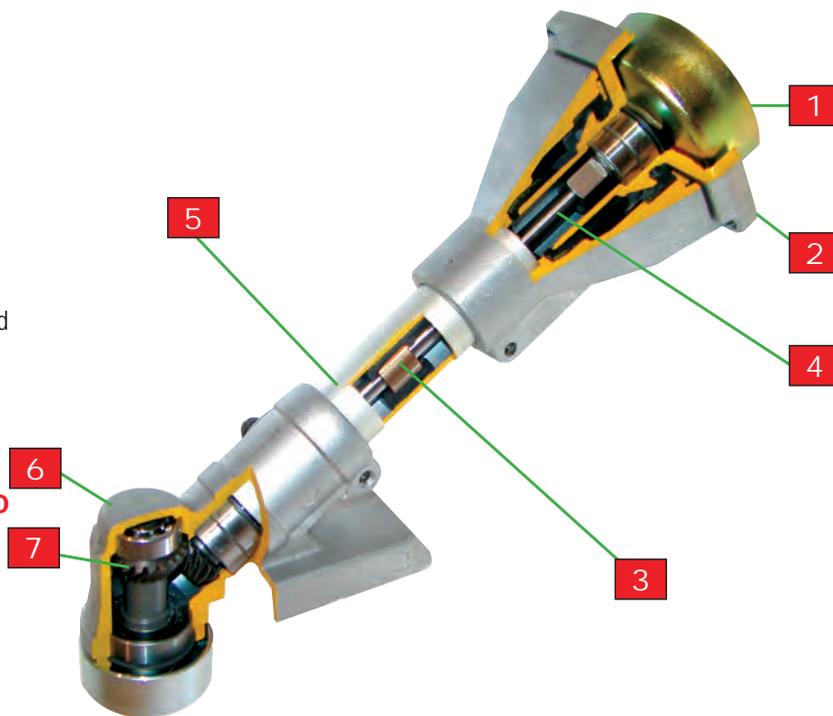

One-piece, seamless aluminum outer shaft for added strength and durability

### 6. HEAVY DUTY GEARBOX - 4-BEARING SUPPORTED GEARBOX

4-bearings support for low vibration and ability to absorb higher shock loads

### 7. HELICAL CUT CHROME MOLY PINION GEARS

Extremely tough materials for long time performance and corrosion resistance

## FEATURE ICON DESCRIPTIONS

### DISPLACEMENT (CC)

Engine displacement refers to the total volumetric engine size measured in Cubic Centimeters, or "CC's", i.e. "42cc"

### DRY WEIGHT

The weight of a complete unit without oil, gasoline, water, or chemical mix. The dry weight is measured after all components to operate the unit have been installed.

### FUEL TANK

The fuel tank is a container to safely store fuel supply until precisely metered into the engine through the carburetor.

### EASY START

Refers to a dual spring recoil system, developed by Maruyama, that significantly decreases the physical effort required to pull start the engine.

### ASSISTED START

Maruyama assisted starter system eliminates the need for a strong pull to start the unit. Short pulls that require little effort will start the unit. Available in selected units.

### HARDENED STEEL

Every Maruyama hedge trimmer features induction hardened steel blades with dual-reciprocating movement for maximum sheering force.

### ADJUSTABLE THROTTLE

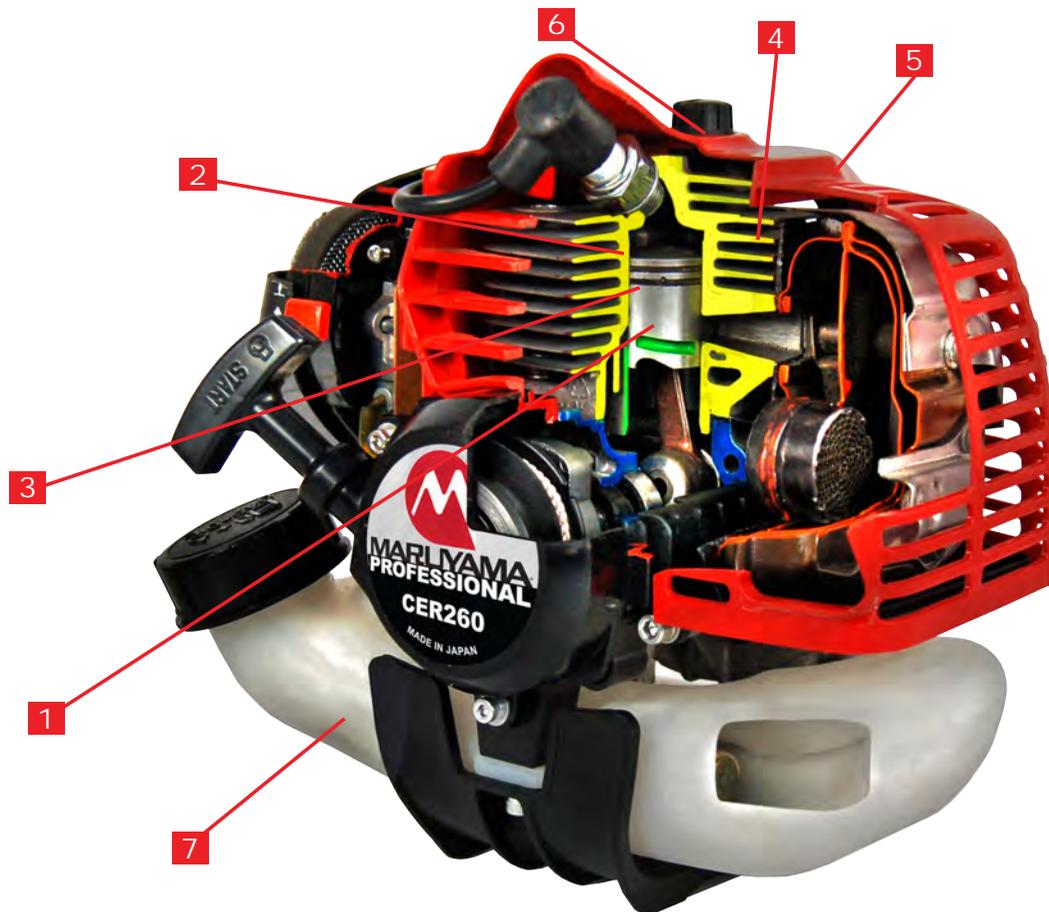

Adjustable maximum throttle control for consistently regulating operational cutting speed.

- Waterproof kill switch button
- Cold-start feature that helps the engine start in colder weather and high altitude

## CER ENGINE FEATURES

Maruyama CER Engines are powerful and friendly with the environment. Maruyama utilizes the latest clean 2-cycle engine technology that not only meets but exceeds today's strict emission regulations around the world. Their environmental friendliness and power will exceed your expectations. Get to know Maruyama technology.

### 1. GROOVED PISTON

The re-circulatory groove is key to the patented HERE (High Efficiency Recirculating Engine) low emission system

### 2. HARD CHROME PLATED CYLINDER

Increases the life to the cylinder and improves performance

### 3. DUAL PISTON RINGS

Increased engine compression which translates into high torque and balance for power and performance

### 4. EXTENDED COOLING FINS

Improved cooling system for extended commercial usage

### 5. ELECTRONIC IGNITION SYSTEM

CDI ignition coil allows for a superior performance

### 6. QUICK RELEASE ENGINE COVER

One bolt design to remove cover makes service faster and easier

### 7. LARGE TRANSLUCENT FUEL TANK

Longer running time between fill-ups translates into increased profits for the commercial landscaper

## **Solid. Dependable. Simply The Best.**

The finest hedge trimmer available today. Great for sculpting, shearing or reaching high branches, these extraordinary hedge trimmers are engineered to balance power, durability and comfort under heavy, daily use. Every Maruyama hedge trimmer features induction hardened steel blades and dual reciprocating movement for maximum shearing force. Better yet, every Maruyama hedge trimmer features precision ground and polished cutting edges for the cleanest cuts and minimum leaf “browning”.

All Maruyama hedge trimmers use the state-of-the-art CER engines, which are light-weight and powerful. The CER engine family is unrivaled in power to weight performance as well as being a low emission, compliant engine which uses far less fuel than previous generation engines.

# PISTON PUMPS

MARUYAMA UNIFLOW™ TECHNOLOGY - Maruyama piston pumps utilize our patented, simple UNIFLOW™ design which ensures fluid moves in only one direction throughout the pump without changing its direction. The piston pumps require less horsepower to operate at peak performance. This technology is unsurpassed for efficiency and reduced fuel consumption.

# PORTABLE SPRAYERS

## Excellent Control, Performance and Results.

Maruyama portable power sprayers offer the best performance and durability in its class. Maruyama's unique UNIFLOW positive displacement piston pump offers a consistent pressure providing supreme chemical coverage and penetration. The continuous improvement allows us to reach working pressures of up to 356 psi. This allows us to effectively use a second lance and an endless number of specialized spray accessories. Ideal for the application of agrochemicals in agriculture, gardening, farms, greenhouses, open field crops, shrubs, fruit trees, vegetables and pest control applications.
